Description

ROLLERI – Press Brake Tooling and Bending Solutions

ROLLERI is an Italian manufacturer specializing in the development and production of**press brake tooling and bending solutions for sheet metal fabrication**. Its extensive product range includes high-quality punches, dies and accessories for press brakes from various manufacturers.

At Hesse+Co, we offer **ROLLERI press brake tooling for a wide range of tool clamping systems and tool holders** These include tools compatible with press brakes from Durma, Baykal, Ermaksan, Amada, Trumpf, Bystronic, LVD and other manufacturers.

In addition to standard punches and dies, the product range includes**special-purpose tools, tool adapters as well as pneumatic and hydraulic tool clamping systems**. These systems enable fast and secure tool changes, helping to reduce setup times. The extensive tooling range covers everything from standard bending operations to complex part geometries.

ROLLERI at Hesse+Co

We provide expert advice on**selecting the right press brake tooling and clamping systems**, taking into account tool compatibility, sheet thickness, bending radius and part geometry. In addition to supplying standard tooling, we also help you find customized tooling solutions and provide spare parts.
