Magnetic drilling machine PRO-36 Battery

Model	PRO-36 Battery
Brand	PROMOTECH
Origin	Poland

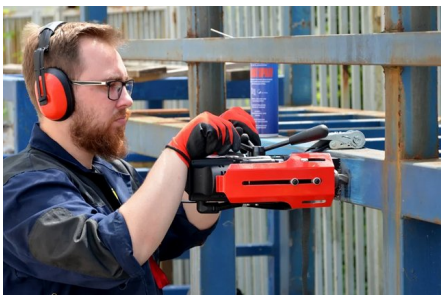

approx. 2 - 4 weeks from order

€ 1.695,00

General characteristics

Drilling capacy mild steel	12 mm
Taper	19 mm Weldon
Motor power	0.45 kW
Max. drilling capacity	12 mm
Max. core drill capacity	36 mm
Max. cutting depth	50 mm
Stroke	70 mm
Motor speed	260 rpm
Min. workpiece thickness	6 mm

Dimensions and weight

Length	316 mm
Width	235 mm
Height	328 mm
Weight	115 kg

Description

The PRO-36 Battery is a drilling machine designed to drill holes of diameters up to 36 mm (1 7/16”) by using annular cutters.

The machine can also drill holes of diameters up to 12 mm (0.47”) by using twist drill bits.

Cordless drill is equipped with LED monitoring system that generates signals in green and red colours to indicate current condition of the drill and give safety information.

Control panel is equipped with so called „vandal resistant” illuminated start/stop switches (green/red)

Features and benefits:

• LED Monitoring System indicates current condition of the drill and gives safety information

• LED interface flashes green when inadequate adhesion is detected due to e.g. gap or thin work piece

• dual bars guide system ensures extraordinary stiffness and adjustment free operation

• overload protection

• Tilt sensor stops the motor if machine breaks away

• Magnetic Field Shape Control (MFSC) provides maximum holding power on thin materials

• Energy Saving Base(ESB) uses only 50% of its power when motor is not running

• innovative smart magnet with reduced weight

Standard shipping set:

• Cordless drilling machine

• Plastic box

• Battery 4.0 Ah

• Handle (3 pcs)

• Safety strap

• Cooling system

• 4 mm hex wrench with a handle

• Operator’s Manual

Optional equipment (prices on request):

Battery charger

Pipe attachment

Pressure cooling system

Vacuum pad

Vaccum pump

Compressed air ejecto
