Weight	7 kg
--------	------

## Description

The ALU can be used to notch a sink outflow in pipes with an external diameter of 22 mm to 76 mm.

Since ALMI pipe notchers have a favourable price and high productivity they are an excellent investment.

ALMI pipe notchers are available for cutting out venting slots in round and rectangular met pipes with an external diameter

from 27 mm upwards and a wall thickness of a maximum of 3 mm.

All the benefits in a nutshell: high productivity, low investments, simple and rapid operation, a number of diameters are immediately available.
