Accurate

Efficient

As a total supplier for sheet metal manufacturing with almost 70 years of experience, Durma understands and recognizes the challenges, requirements and expectations of the industry. We strive to satisfy the ever higher demands of our customers by continuously improving our products and processes while researching and implementing the latest technologies

In our three production plants with a total of 150.000 m², we dedicate 1,000 employees to delivering high quality manufacturing solutions at the best performance-to-price ratio in the market.

PRODUCTION IS
MORE EFFECTIVE NOW

From the innovations developed at our Research & Development Center to the technical support given by our worldwide distributors, we all have one common mission: to be your preferred partner.

Durmazlar offers it's machines to the world markets under the Durma brand.

1

High technology,
modern production
lines

2

Top quality
components

3

High quality
machines designed
in R&D Centre

SBT

Rigid body structure and perfect cutting

Unique design and rigid body enable SBT series to provide perfect cutting quality and low cost solutions.

Production is *More Effective Now.*

Advance Your Standards Precision and high quality cuttings

High technology standards, design and user-friendly interface SBT provides perfection with high standard safety, efficient solutions that strengthen your skills and add value to your company.

We have reduced the cutting angle to achieve straight precision and minimum twist tolerance.

Why DURMA Shears

- Fast and quality cuttings
- Robust body structure
- High precision and repeatability
- Low maintenance cost
- Hi-tech perfect equipments
- Boost your business
- Reliable Brand

GAIN MORE POWER

High performance, advanced technology and economic solution

DURMA Shears have been manufactured since 1956 and have been installed and working in a wide variety of sheet metal cutting operations for many industries.

Years of experience has helped us develop durable, low distortion and precise cutting machines.

General Specifications

- Robust design & powerful body for perfect cutting
- Hardened and ground blades for long life and precise
- Proved and rigid design with swing beam top table
- Minimum deformation and optimum cutting quality with best cutting angle
- CE standards security
- The combination of economic and perfect cutting performance
- CNC controlled gap adjustment and cutting angle
- User friendly CNC touch screen control unit
- Provide flexible use for narrow or wide, thin or thick sheet metal cutting.
- Automatic swing up back gauge for more comfortable use
- Sheet support arms
- Balls tranfered table and T-slot front feedings arm helps prices cuttings
- Table with balls and feeding plates

STRONG BACK GAUGE SYSTEM

- **Precise**
- **Robust**
- **Min. Deformation**

- Fast and high accuracy
- Reliable movement
- Adjustment from each point
- Resistance to crash
- Maintenance free

Why DURMA Back Gauge ?

One of the most important factor for cutting capacity is the design of back gauge and stability.

Quality cutting is possible with perfect product, stability and precision back gauge.

The high speed ballscrew back gauge system movement is also supported with linear guides, which helps the back gauge achieve long life, greater sensitivity and strengthens against any collisions.

Ballscrew back gauge

SBT

SBT Series General Features

With choice of standards and optional equipment SBT boost your business by offering proper solutions for your needs. With the hi-tech features like high efficiency, precision, and high performance criteria SBT has proved that it is user friendly and the best of this sector.

- Flip-up Finger Guard Adjustable
- Ball Transfer Table
- Hydraulic Holddowns

- Adjustable Angle Stop 0-180°

- Light Curtains For Finger Protection

- Blade Gap Adjustment

- Thin Sheet Support System

Sheet Support Systems

- Better and fast cutting
- Easy and secure usage
- High precision and repeatability

■ Pneumatic Thin Sheet Support System

DURMA I

Step 1

Before cutting operations, sheet support system with pneumatic driven assists for sheet as moving upwards as per in the picture.

Step 2

Once the cutting process is kicked off, the table comes down lower position at the same time and this will ensure cutting sheets placed over the table again as seen in the picture.

■ Pneumatic Thin Sheet Support System

DURMA IV

Step 1

Before cutting operations, sheet support system with pneumatic driven assists for sheet as moving upwards as per in the picture.

Step 2

Once the cutting process is kicked off, the table comes down lower position at the same time and this will ensure cutting sheets placed over the table again as seen in the picture.

Step 3

After cutting process is finished, sheets are discharged by closing movement of the table.

D-Touch 7 Control Unit

Fast data entry

Easy connection USB port

Ethernet Rj-45 10/100M

Easy programming

Cuttings are easier with D-Touch 7

With easy to use interface D-Touch 7 enables perfect cutting in seconds by endless programming and material entrance feature.

- Wide, colored, touch-screen (LCD 7" 800x480)
- Quick data entry
- Easy connection
- USB input
- Ethernet: RJ-45 10/100M
- Windows CE Unlimited program and steps
- Unlimited material type

SBT Series Technical Details

SBT Series	Cutting Length	Cutting Capacity		Throat Depth	Stroke per min.	Cutting Angle	Holddowns	Holddown Force	Back Gauge Range	Back Gauge Force
		MS (450 N/mm ²)	SS (700 N/mm ²)							
	mm	mm	mm	mm	1/dak.	°	Birim	Ton	mm	kW
	A			D

STANDARD & OPTIONAL EQUIPMENT

Standard Equipment

- Heavy duty St 44 steel construction & stress relieved frame
- User friendly CNC Touch screen control unit D-Touch 7
- Throat Depth 350 mm (SBT 3016 & 4016 available)
- Easy blade gap adjustment
- Ball integrated front tables
- Ballscrew back gauge, 1000 mm & automatic swing-up
- Squaring arm with scale & T-Slot & tilting stop
- Support arms T-Slot & Tilting stop
- Illumination & shadow line 1 mt flip-up finger guards
- Automatically pressure adjusted solid holddowns
- Top blades with 2 sides and Bottom blades with 4 sides
- Motorised Foldable Backgauge (3006&3010&3013&4006)
- Manuel Foldable Backgauge (SBT 3016&4016 available)
- Foot pedal
- High performance hydraulics & electronics components
- Automatic Swing-up back gauge
- CE-Norm

Optional Equipment

- Motorized blade gap adjustment
- Laser cutting line
- Light curtains for finger protection
- Pneumatic thin sheet support DURMA I
- Pneumatic thin sheet support DURMA IV
- Special throat depth
- Backgauge 1250 mm.
- Add. support arms
- Special blades
- Oil coolant
- Oil Heater
- Adjustable angle stop 0-180°
- Control panel on opposite position
- Temperature measurement
- Overseas special packaging

Production is *More Effective Now.*

FAST ON SERVICE AND SPARE PARTS

DURMA provides the best level of service and spare parts with qualified personnel and spare parts in stock. Our experienced and professional service personnel are always ready at your service. Our professional training and application enriched courses will give you an advantage to use our machinery.

Vertrauen Sie auf über 70 Jahre Erfahrung!

Die Firma HESSE+CO wurde 1947 als Hersteller von Blechbearbeitungsmaschinen gegründet. Seit 1980 sind wir auf den Handel mit neuen sowie gebrauchten Blechbearbeitungs- und Werkzeugmaschinen spezialisiert. Wir haben ständig etwa 300 Maschinen in unserer 2.000 m² großen Ausstellungshalle, die nur 20 Minuten vom internationalen Flughafen Wien entfernt ist.

Trust in more than 70 years of experience!

HESSE+CO was established in 1947 as a manufacturer of sheet metal working machines. Since 1980 we are specialized in dealing with new and second hand sheet metal processing machines and machine tools. We always have approximately 300 machines available in our 2.000 m² showroom, which is located only 20 minutes from the Vienna International Airport, waiting for your inspection.
